DEFENCE & DIGITAL SYSTEMS

Skyshield air defence system

BAAS visualisation; configuration may vary.

OVERVIEW

A modular site-protection concept combining observation, command and remotely managed system elements.

PROFILE HIGHLIGHTS

- Integrated sensing - Brings complementary observation information into a clear system view.
- Remote control - Allows operation from a connected control position where supported.
- Flexible configuration - Can be configured around the intended platform and requirement.

Discuss your requirement with BAAS

Product configuration and scope are confirmed for the individual enquiry.
