DEFENCE & DIGITAL SYSTEMS

Skymaster battle management system

BAAS visualisation; configuration may vary.

OVERVIEW

A command and coordination platform that brings information from connected air-defence elements into a shared operational view.

PROFILE HIGHLIGHTS

- Shared overview - Presents connected information in a coherent command view.
- Network coordination - Supports coordination across compatible sensors and system components.
- Adaptable integration - Can be configured around different system architectures and requirements.

Discuss your requirement with BAAS

Product configuration and scope are confirmed for the individual enquiry.
