DEFENCE & DIGITAL SYSTEMS

Skyguard 3 air defence system

BAAS visualisation; configuration may vary.

OVERVIEW

A fixed-site air-defence system centered on a coordinating control unit and compatible connected elements.

PROFILE HIGHLIGHTS

- Connected operation - Supports information exchange with compatible command elements.
- Flexible configuration - Can be configured around the intended platform and requirement.
- Integrated sensing - Brings complementary observation information into a clear system view.

Discuss your requirement with BAAS

Product configuration and scope are confirmed for the individual enquiry.
