DEFENCE & DIGITAL SYSTEMS

Qualified Arms for Air Defence

BAAS visualisation; configuration may vary.

OVERVIEW

A site-focused counter-drone concept combining observation, coordination and compatible response elements.

PROFILE HIGHLIGHTS

- Integrated sensing - Brings complementary observation information into a clear system view.
- Connected operation - Supports information exchange with compatible command elements.
- Flexible configuration - Can be configured around the intended platform and requirement.

Discuss your requirement with BAAS

Product configuration and scope are confirmed for the individual enquiry.
